Dear Parent,

India is committed to control and eliminate Rubella/ CRS (Congenital Rubella Syndrome) by 2020.

To achieve this goal, we all need to get together to support the campaign for the healthy future of our children.

Dr. Meenu Sharma, General Physician, Civil Hospital, Gurgaon would be monitoring this drive and other doctors from Haryana Health department will be administering the vaccine at The Maurya School, Gurgaon on 1st May, 2018 & 2nd May, 2018. It is advised that all children from the age of 9 months – 15 years need to be vaccinated. According to the World Health Organisation (WHO) this is a safe vaccine.

We request you to submit your consent for vaccinating your ward by Friday, 20th April, 2018. In case we do not receive a confirmed response from you, we will consider it as a 'no objection' from your end and will go ahead with the immunization of your ward. You are requested to send us the consent form, duly filled, even if you do not approve of the same.

All the information about the MR Campaign has been uploaded on the school website.

Let us join hands in this drive and make India Measles and Rubella free.

Thank you for your unstinting support in all our endeavours.

Kind regards

Shalini Bajaj
Head of the School
